

Quick Stairs by H&R Johnson

Ready to install Anti-slip Stairs

H&R Johnson (India), India's leading Integrated Lifestyle Solution provider offering tiles, bathroom products, modular kitchens and engineered marble & quartz has launched **Johnson Quickstairs**, ready to install anti-slip stair treads and risers in engineered marble which are also pre fabricated and pre-polished and extremely maintenance friendly.

The standard dimension & thickness of Johnson Quickstairs are:

- **Dimensions** : Treads - 4ft x 1ft ; Risers - 4ft x 0.5ft
- **Thickness** : Treads - 18mm; Risers - 16mm

Johnson Quickstairs can also be customized as per the requirements and it is possible to match the floor/wall texture in order to maintain uniformity in finished space. Cutting losses are reduced by almost 20% – 25% as compared to natural marble which are usually cut on site. Furthermore, the colour and supply consistency of the stairs is also assured. Being a finished product, it reduces laying time which in turn helps in quick project completion and saves substantial labour cost. Not only is it economical as compared to natural marble but at the same time it provides better stain & abrasion resistance.
