SIGNATURE OF LUXURY SINCE 1958

At H & R Johnson (India), we believe every surface can be a masterpiece. For 67 years, our legacy has been defined by innovation, precision and an unwavering commitment to beauty. Porselano is the purest expression of this vision, where craftsmanship meets design to create the art of fine living. True luxury is not loud; it is the quiet confidence of a masterpiece that stands the test of time.

From the way light falls on a polished finish to the texture that invites a touch, each detail is imagined with the eye of an artist and the skill of a master. Inspired by nature's finest creations, such as marble, stone, wood and perfected through breakthrough technology, Porselano transforms spaces into living galleries where beauty is timeless and craftsmanship speaks for itself.

THE PINNACLE OF TILE DESIGN

Porselano is India's only truly premium range of Glazed Vitrified Tiles where craftsmanship meets design in its purest form. Every surface is a canvas where exotic inspirations from marble and stone to wood and concrete are reimagined with unmatched precision and elegance. Available in versatile sizes and 6 distinct finishes, Porselano transforms spaces into timeless masterpieces, ensuring that every surface tells a story meant to last forever.

DESIGNER'S NOTE: DESIGNS THAT SPEAK BEYOND THE SURFACE

“ When we designed Porselano, we worked with a material that united enduring strength with refined design. The varied and distinct surface finishes allowed us to explore intricate patterns and expansive detail, capturing the richness of marble, the texture of stone and the warmth of wood. Across floors and walls, Porselano creates a sense of scale, continuity and contemporary elegance transforming every surface into a canvas that defines modern spaces with depth and permanence. ”

- from the Designer's Desk

PORSELANO TILE FIXING INSTRUCTION

(80x160, 80x120, 60x120, 20x120, 60x60, 40x40 cm)

- Plaster the surface of the floor where the tiles will be laid with smooth finish and complete the plastering and curing at least two weeks prior to laying.
- Before fixing Porselano tiles lay them out in the desired pattern and make sure that they give an acceptable blend of shade, colour and design. Please note that certain amount of shade and size variation is inherent in the manufacture of vitrified tiles. Certain products will have intentional shade or colour variation to get the natural and elegant look, which is an integral element of the design resembling natural marble, stone and wood.
- The company bears no responsibility towards the tiles exposed to any outside process like transfers, printing, firing etc.
- For fixing Porselano, we recommend using an appropriate product from the range of tile fixing adhesives from the ARDEX ENDURA (INDIA) PVT. LTD. Please follow the adhesive manufacturer's recommendations and instructions for best results.
- For fixing Porselano tiles of size specifically 60x60 cm, 40x40 cm and 20x120 cm on the floor, using sand and cement, follow the instructions given below:
 - Use cement and sand mortar in the ratio of 1:4. Add some water to create a consistent paste.
 - Once the mixing has been completed do not add any further water and use the same within one hour.
 - Apply a 20-30 mm layer of bedding material over an area of 1 square meter at a time on the surface of the area. Apply a fine slurry to the back of the tile to ensure proper and full bedding. Press gently for even adherence at the back of the tile.
 - DO NOT USE AN IRON HAMMER OR SOME HEAVY MATERIAL TO PRESS THE TILE.**
- For fixing Porselano tiles on Wall / Dado, we recommend using an appropriate product from the range of tile fixing adhesives from the ARDEX ENDURA (INDIA) PVT. LTD. with proper troweling method for 100 per cent coverage behind the tiles and for peerless bonding. Please follow the adhesive manufacturer's recommendations and instructions for best results. We do not recommend the use of sand and cement for fixing on Dado.
- Mark and lay out the tiles from the center of the area to be laid so that cut tiles, if any, will be on the outer edges towards the walls.
- The work size which we try to maintain for better technical performance is 60 cm x 60 cm on average. For large format slabs of 80x80 cm and above we do not recommend tiles to be laid without a gap. Tile spacers can be used at each tile corner to maintain even grout lines between the tiles. It is advisable to maintain a gap of 3 mm to 6 mm between every tile to allow for possible expansion as per ISO tolerance norms.
- Complete the laying process by pressing the cut Porselano tiles firmly into place along the walls/floors.
- Allow 1-2 days for bed curing for 60x60 cm, 40x40 cm and 20x120 cm and for all tiles above 80x80 cm, allow 3-4 days for bed curing. After this period fill the joints with cementitious or epoxy grouts from ARDEX ENDURA (INDIA) PVT. LTD. Use of grout sealant is recommended for keeping the grout free of dust.
- Fifteen minutes after finishing the grouting process, wipe off excess grout with a damp sponge and polish the tiles with a soft and dry cloth for a clean surface. The tiles can also be cleaned with a mild acid (However, Hydrofluoric acid and its derivatives should not be used). You can also use tile & stone cleaners from ARDEX ENDURA (INDIA) PVT. LTD.

12. Please note that the company does not accept any liability in case of problems arising out of non-adherence to these fixing instructions.

13. THE COMPANY WILL BEAR NO RESPONSIBILITY AFTER THE TILES ARE FIXED.

14. Kindly look for an arrow (→) on the back of the tile and follow the laying pattern as shown in Pic - 1:-
